Procedure for Knockout Draw

At the completion of the Round Robin stage the top two players from each group will progress to the knockout. As there are only seven groups, this means the top two seeded players will receive a bye in the first round, progressing directly to the Quarter Finals.

The following procedure will be used for the seeding of the draw:

1. The Group Winners will be seeded as follows:

- Least number of matches lost
- Highest POINTS AVERAGE (i.e. POINTS DIFFERENCE divided by MATCHES PLAYED)
- If two or more players are tied, a random draw will determine their seeding position

2. When the Group Winners have been seeded they will be placed into the draw sheet in the appropriate positions. The Runners-up of the Groups will be similarly seeded as above, except that they will be placed into the highest available seed position in the opposite half of their own Group winners.
